Persona Portraits

YOUR UNIQUE STYLE

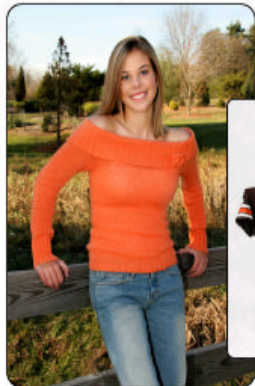

Your photography session is focused on YOU.

You will be spending your time one-on-one with a trained photographer whose main goal is to capture what is uniquely you. Your suggestions are important as we want to make sure we capture your personality in every portrait. Please give us your ideas as far as poses and expressions.

Depending on what session you choose, we will photograph you either in our studio, on location in the area or a combination of both. Other locations may be chosen for an additional charge. Please let us know if you would like to include additional locations when you book your appointment.

Studio and/or Location Sessions*—includes one in-studio hour and/or one on-location hour, travel time to outdoor site not considered as session time.

*Locations not within 30 minute drive from studio may incur an additional cost.

Every portrait you receive includes softening and basic retouching so ensure you look the very best!

We also offer a custom session option created just for you. Ask us for more details.

LOOKING GREAT

We know you want to look your best in each portrait. Below are some tips to help you look great!

- Try not to cut your hair within one week from your scheduled portrait session. A bad hair day can ruin a fun experience.
- Tan lines do not look great in a portrait and sunburns certainly do not. Try to avoid tanning for a few days before your scheduled session. Some tanning beds can give you an orange tint that will show up in your portraits.
- Avoid bright colors or bold patterns, they can be distracting, not to mention, out of style in a few years.
- Bring items that are important to you that can be props in your portrait such as sports items, letter jackets, musical instruments, etc.
- Ladies—bring your own makeup for last minute touch ups. Remember, natural looking makeup makes the best portrait.
- Gentleman—Shave the morning of your session as some of your portraits will be close-ups.
- Relax & have fun!
